Climate Action Secretariat, Ministry of Environment
British Columbia, Canada

Anne Foy, Strategic Advisor
Tax Policy Branch, Ministry of Finance
British Columbia

Presentation to Connecticut Department of Energy and Environmental Protection
"British Columbia Revenue Neutral Carbon Tax."

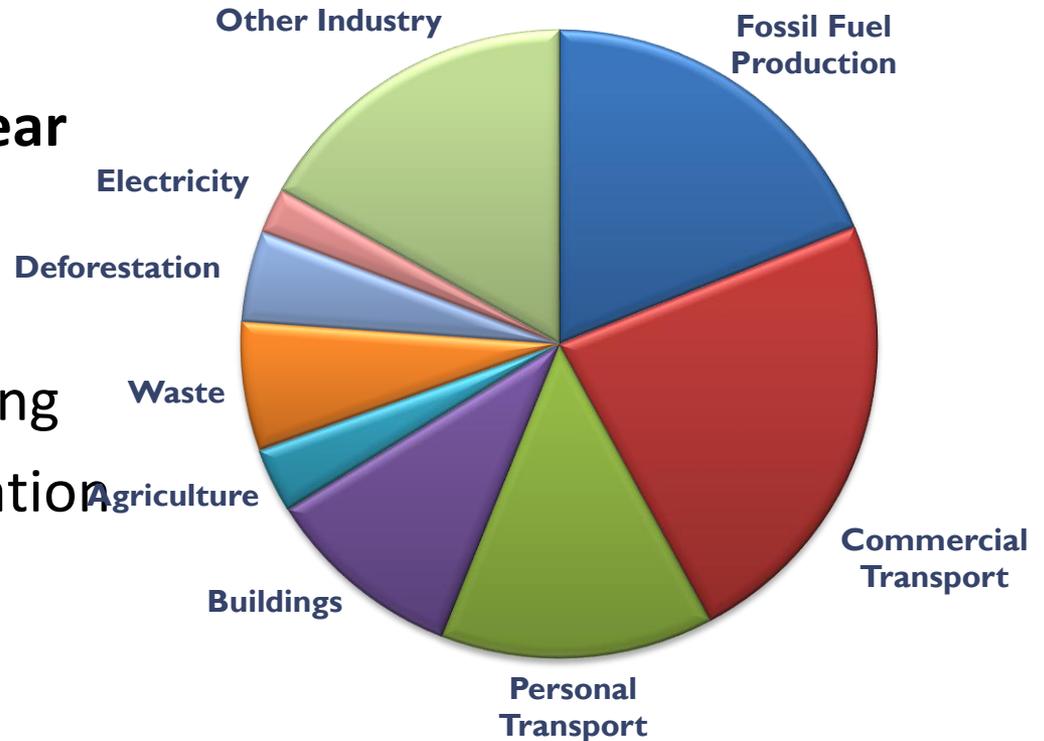

April 18, 2016

BC's Emissions Profile

64 million tonnes CO₂e per year

- ~95% hydroelectricity
- No coal-fired electricity
- Limited heavy manufacturing
- Largest sector is transportation
- Growing natural gas sector

Climate Action Plan 2008

- Revenue neutral carbon tax
- Entrenched greenhouse gas reduction targets in law.
- Targeted action in all sectors to reduce emissions and shift to low-carbon economy.
