

Earth Day 2009 Compost Give-Away

Small bags of compost produced by CT DEEP Office Organics Composting Program were given to employees as a thank-you for their support and involvement.

Fill A Bag of DEP Compost

And Reap What You Throw!

One bag per person while supply lasts. If there is anything left after 3:00 come back for more.

Today from 9:00 – Noon stop by the composter (out back) and see how we harvest our compost!

Please take a moment to thank the volunteers who made this and many other batches of compost...they are truly "Organic Mechanics"!

Volunteers for the Compost Program are always welcome. Please see the Compost Connection pages in InSide DEP, or call K.C. Alexander for details. X-3239

CONNECTICUT DEPARTMENT OF ENVIRONMENTAL PROTECTION

86,371 Pounds of Food Scraps Recycled and 16.8 Cubic Yards of Compost Harvested Since September 1997!

These are just some of the "waste" items that were picked out of the spent meal. Please DO NOT put plastic, metal, glass or Styrofoam of any kind into the compost buckets. These items do not decompose and make the compost tank "tricky". Thank!
